

Instructions

Using the graph, draw the outline of your splashback. Each square represents 100mm so if your splashback is 600mm high, this will be 6 squares high on the graph. If it is 2350mm long, this is to be shown as 23 1/2 squares long on the graph etc. Mark the location of any cut outs

For example:

-  for a power point cut out
-  for a hole for utensil rails / wall mounted tapware
-  for glass curved rangehood

Once you have completed your diagram, please fax to us on 02 6652 7667 and we will contact you.

KITCHEN SPLASHBACK PROPOSAL ACCEPTANCE AND CHECKLIST FOR FINAL MEASURE

Customer Name: _____ Our proposal Ref No. _____

Job Site Address: _____

Suburb: _____ Postcode: _____

Telephone: _____ Fax: _____ Email: _____

Please read through and check off the following requirements before requesting a site measure

- All CABINETS are installed.
- All BENCHTOPS are installed.
- All GPO's (such as power points range and light switches) are in their final location
- Rangehood is fully installed for glass to meet to bottom edge **OR** Rangehood has been pre-installed and removed so glass can be installed behind rangehood and flu. Rangehood is onsite for inspection. (Delete which is not require)
- All window surrounds and architraves is fitted.
- Stainless Steel splashbacks behind cooktops are fitted.
- Any fixtures such as utensil rails, Taps etc are located on wall and items are onsite for inspection
- Holes for Undermount lighting in overheads are required to allow for wiring. Wiring is in place prior to final measure. Lights are onsite for inspection.
- I understand that anything protruding from the glass splashback must be fitted after installation of glass and not before silicone is set - minimum 24hrs after installation.
- I agree to pay for removal of any appliances or fixtures in order for the glass to be installed.
- I understand I hold responsibility for the cost of splashback glass removal, should it be required by anyone other than Harbour Glass (AUST) Pty Ltd.
- If colour matching is required, please ensure a colour swatch is to be made available on-site for collection.

I _____ understand the original proposal was provided on estimated dimensions, and final cost may vary upon final measurement.

I have read and met all the above requirements. Should information provided be incorrect, and final measurements are unable to be taken, I understand a minimum charge of \$77 will be incurred.
